

2020 COVID-19 CHANGES

Change	Mandatory or Optional	Plan Amendment Required	Applicable Plans	Plan Years Affected	Description	Example
Claims Filing Deadline Extensions (Run-Out Periods)	Mandatory	No	FSA, DCA, Limited FSA, HRA. Also includes Medical, Dental, Vision, etc.	All plans with run-out periods either in effect or commencing on March 1 or later.	All run-out periods are now extended 60 days passed the end of the national disaster is declared over. If any run-outs were in effect on March 1, the number of days left in the run-out period as of March 1 are added to the 60 days.	<p>Example 1: Plan ended 12/31/2019 with a 90-day run-out that ended 3/31/2020. Run-out is now extended to 60 days following the date the national disaster is declared to be over (TBD) plus the 31 days in March that were left in the run-out period.</p> <p>Example 2: Plan ended on 4/30/2020 with a 60-day run-out to end on 6/30/2020. Run-out is now extended to 60 days following the date the national disaster is declared to be over (TBD) plus the 60-day run-out.</p>
Election Changes	Optional	Yes	FSA, DCA, Limited FSA	Plan years commencing in 2020	<p>Employers may choose to allow employees to change their elections without the standard qualifying event because of being impacted by COVID19. These changes could allow employees to increase or decrease their election amounts. No proof is required that individual was affected.</p> <p>Employers can also allow furloughed employees to revoke coverage while on furlough and reinstate coverage upon their return.</p>	<p>Example 1: Employee elected \$2,400 in the medical FSA, has contributed \$1,000, and spent \$1,500. Employer can limit the reduction in amount to no less than the \$1,500 the employee has spent to minimize risk.</p> <p>Example 2: Employee elected \$2,400 in the medical FSA, has contributed \$1,000, and spent \$0. Employer can allow the employee to reduce their deduction amount to \$0 going forward, if the employee so chooses, and therefore, in effect, have a new election of \$1,000.</p> <p>Example 3: Employee elected \$2,400 in Medical FSA and contributed \$1,000 and spent \$1,500.00. Employer allows the employee to terminate coverage. Even though this is a COBRA qualifying event because the amount is overspent, no COBRA is offered.</p> <p>Example 4: Employee elected \$2,400 in Medical FSA and contributed \$1,000 and spent \$0.00. Due to reduction in hours employee wants to terminate coverage and employer has changed the plan to allow. This would result in a COBRA qualifying event and since the FSA is underspent, COBRA will be offered.</p>
