

Medcom Mobile

Help your clients create smarter healthcare consumers and drive better spending and saving decisions with the Medcom Mobile app!

Times Are Changing...

Technology influences employee behavior and changes their expectations. They no longer compare goods and services, but instead experiences. As a result, employees are demanding innovation, engagement, and personalization across every aspect of their lives, including healthcare.

Medcom Mobile Delivers!

When it comes to your clients' CDHP accounts, the Medcom Mobile app takes the guesswork out of healthcare spending and saving decisions. It includes a personalized, real-time, and self-guided experience that ensures employees have access to not only powerful self-service capabilities such as viewing and managing their account, submitting claims, and accessing account alerts but also actionable insights that lead them down a path to better healthcare spending and saving behaviors.

The Medcom Mobile app combines health and wealth in one location, giving users personalized low-cost, high-quality healthcare options and making users smarter consumers of healthcare by guiding them to spend less now and save more for the future.

What Your Clients Can Expect...

- A modern, native mobile interface that integrates new health management capabilities with powerful self-service capabilities
- Data driven tools, including a personalized Smart Score, that guide users to make informed decisions about where to best spend and save their healthcare dollars
- Cost and quality insights that allow users to better search for procedures and providers
- A virtual medicine cabinet for managing monthly drug costs
- Long-term savings recommendations based on known chronic conditions
- Personalized recommendations to maximize account value
