Medcom Benefit Solutions announced this week a new partnership with Health Advocate, enabling its participants in pre-tax reimbursement programs to gain access to professional and proven support for navigating the complicated and expensive healthcare system.

About Medcom Benefit Solutions

Medcom Benefit Solutions administers a variety of tax advantaged Consumer Driven Health Plans (CDHP) using sophisticated debit card technology to meet the convenience and needs of plan participants and goals of the employer. With the addition of Health Advocate services, we are able to offer enhanced benefits designed to assist participants, spouses, children, parents, and parent-in-laws, saving everyone time and money. These enhancements include, answering tough FSA, HSA, and HRA questions, helping participants locate in-network providers, making appointments, resolving claims issues, managing provider fee negotiations, and much more.

President of Medcom, Michael J. Bracken, states, "As healthcare costs continue to increase, more employers are introducing high deductible health plans to their employees. The addition of Health Advocate's services enables plan participants to gain greater control over their healthcare purchases using Medcom's tax-advantaged reimbursement plans, generating a win-win scenario for all participants."

Medcom is a leader in benefits administration and regulatory compliance, offering a diverse collection of products designed to help employers meet the challenges of a rapidly changing workforce.
